## RECEPTION AT MINNEAPOLIS

Large Crowd Fills Auditorium and  
Thousands Are Turned Away—Aud-  
ience Listens Attentively as the  
President Discusses in Detail the  
Tariff Question, Control of Trusts  
and Railway Rate Regulation.

Minneapolis, Oct. 25.—Not on any of his visits here has President Taft been given such a cordial welcome as he received and never has he appeared to better advantage. Never has he made a more vigorous speech in this state and never before have Minnesota people listened to him with such interest and attention.

If men in the big audience that greeted him disagreed with him on any point they at least showed that they were intensely interested in the questions now before the people of the United States.

After an introduction by Cyrus Northrop, in which the former president of the University of Minnesota and former instructor of Mr. Taft pictured the president as the greatest of progressives because of his work in behalf of universal peace, the president made an address of an hour in which he discussed in detail the tariff question, the control of trusts and the railroad regulation question.

The discussion of the trust question gave the president occasion to repeat his answer to the charge that he had set up the supreme court with the understanding that the judges would emasculate the anti-trust act and in more vigorous language than before.

## Statement Without Foundation.

"Of course," he said, "there is not the slightest foundation in such a statement. Of course, I never had an understanding with any judge I ever put upon the bench upon any subject. And the man, or the men, who make such a charge lightly reveal the fact that they have no realization of the infamy, the corruption that would be involved in such an understanding."

The president, who had aroused the audience to tumultuous cheering with this remark, added that the appointment of the supreme court justices "is the most sacred duty that a president has to perform and a man may well go into his closet and pray to God for guidance that he may appoint to that high tribunal men of high courage, men of intelligence, men of profound wisdom."

The Auditorium, which seats close to 3,000, was filled to capacity more than an hour before the arrival of the president and a crowd fully as big was standing outside trying to get in or at least get a glimpse of the big man.

Just how many were turned away cannot be estimated, but many more than got in failed to hear the executive.

## DANES RIDICULE DR. COOK

Explorer Nansen Leads Disturbers at  
American's Lecture.

Copenhagen, Oct. 25.—Dr. Frederick A. Cook's attempt to vindicate his reputation by a lecture in the hall where two years ago he addressed the royal family and some of the most prominent people of Denmark under the auspices of the Geographical society on the occasion of his triumphant entrance into the capital resulted in extremely riotous scenes and he finally was compelled to retire ingloriously by the back door.

The meeting was turbulent throughout. A small fraction of the audience supported Dr. Cook and applauded his efforts. Others hissed continually with the result that the two sides almost came to blows.

Dr. Norman Nansen, the Danish explorer, who formerly supported Cook, started the trouble by loudly denouncing Cook as a swindler.

## NO CLUE TO DOCTOR'S SLAYER

Death of Indianapolis Woman Mys-  
tery to Police

Indianapolis, Oct. 25.—How Dr. Helen Knabe, former state bacteriologist, found in bed with her head almost severed by the slash of a knife, came to her death remains a mystery to the police.

Jefferson Haynes, the negro janitor of the apartment house where Dr. Knabe lived, was detained on suspicion that he knew something of the circumstances of her death, but the detectives let him go after he had withstood for hours their attempts to extract incriminating information.

Dr. Knabe was thirty-five years old and of strikingly attractive appearance. She never had been married.

## Semblich Loses on Stocks.

New York, Oct. 25.—Severe, almost sensational, financial losses have forced Mrs. Marcella Semblich to return to the concert platform and to the stage, if an engagement there shall be forthcoming. It is said her losses on the stock exchange during the last two years have amounted to \$2,000,000. The diva is reported to have speculated in the hope of increasing her wealth.

DRAFTS FORM OF  
LIABILITY LAWFederal Compensation Commis-  
sion Agrees on Basis.

## FINDINGS ARE NOT FINAL

Hearings Will Be Held in Washington  
Beginning With Nov. 6, When Per-  
sons Interested May Appear and Of-  
fer Suggestions—Plan Provides for  
Direct Payment for Injuries and  
Such Compensation Is Made Com-  
pulsory.

Washington, Oct. 25.—After a two-day executive session the employers' liability and workmen's compensation commission reached an agreement on the basis of legislation to be recommended to congress and adjourned until Monday, Nov. 6, when the commission will meet here for the purpose of hearing suggestions from persons interested in the proposed legislation. The findings of the commission are not final, but it is not probable that they materially will be changed.

The law proposed will provide for direct payment by interstate carriers for injuries sustained by their employees and such payment is made compulsory. Senator Sutherland, chairman of the commission, supplied an outline of the proposed plan, as follows:

"The law is to provide payment of compensation by interstate carriers engaged in interstate transportation to employees sustaining injury by accident while engaged in such transportation, except in cases of willful misconduct to be hereafter specified.

"The compensation is to be paid by the employer directly and not out of a general fund created by any form of taxation.

"The law shall be in form compulsory and not subject to election by either employer or employee.

"The remedy provided by such law to be exclusive of any common law or other statutory remedy.

Applies to All Accidents.

"To apply to all accidents resulting to the employee while in the course of his employment, except those where the disability continues for a period of two weeks or less; the employer, however, to furnish medical and surgical assistance to an amount not exceeding \$200.

"Payments of compensation to be made under the law shall be made periodically and not in lump sum, with, however, appropriate provision for commutation at any time after the lapse of six months on the application of either party.

"The amount of payments to be limited to a minimum and maximum sum and not to continue beyond a specified term of years to be hereafter fixed. The question as to whether or not this limitation shall apply to permanent total disability is left open.

"The amount of all payments to be based upon a percentage of the wages received by the injured employee at the time of the injury to be hereafter fixed.

"All claims arising under the law shall be nonassailable and exempt from levy.

"In case of death payments to be made to dependents, including alien dependents.

"All claims under the law to be made preferred lien.

"Whenever any railroad company and its employees have agreed or shall hereafter agree upon a plan of compensation which is as favorable to the employees as the provision of this law such plan may be substituted for the law, provided that wherever any such plan the employees contribute to the compensation fund the plan shall contain beneficial provisions in addition to the schedule of payments equivalent to such contribution."

As a counter charge the defense asked that District Attorney Garland, a relative of the accused, be barred from prosecuting the case, he be compelled to cease from directing it.

## Rate War on Iron Range.

Duluth, Oct. 25.—Of vital importance to shippers of ore is the announce-  
ment made by prominent mining men of this district that the Northern Pacific railroad will run spurs to Cuyuna range and compete with the Soo road for the ore business there. It is stated further that a rate war will result between the two roads.

Prosecution in Mrs. McRee Case Asks  
Discharge of Veniremen.

Opelousas, La., Oct. 25.—Indirectly charging the sheriff with favoritism in summoning veniremen for the trial of Mrs. Zee Runge McRee on the charge of murdering Allen Garland, the Tulane college student, the state moved to dismiss the panel of 150 veniremen. The motion charges that a man active in behalf of the defense has accompanied Sheriff Swords on his trips summoning veniremen.

As a counter charge the defense asked that District Attorney Garland, a relative of the accused, be barred from prosecuting the case, he be compelled to cease from directing it.

Louisville, Oct. 25.—As she was leaving here for Washington Miss Lola La Follette, daughter of Senator Robert M. La Follette of Wisconsin, told friends she would be married at the capital Saturday to George Middleton, playwright, to whom her engagement recently was announced.

It had not been expected the wedding would be so soon. Miss La Follette, who is an enthusiastic suffragist, read a play before the woman suffrage convention in session here.

IS FORERUNNER OF  
MANY OTHER CASESSuit Filed at St. Paul to Dis-  
solve Alleged Lumber Trust.

St. Paul, Oct. 25.—That the suit commenced in the United States circuit court to dissolve the so called lumber trust is a forerunner of suits dissolving other trusts, which will be instituted soon in St. Paul, was the belief prevalent at the federal building.

The force of the department of justice, which heretofore has been composed of only J. W. Bowen, special agent, will be greatly augmented, it is said. It is planned to have an assistant attorney general located in St. Paul permanently.

There probably will be from six to eight inspectors here and the office will have charge of prosecutions for federal offenses and government investigations in Minnesota, Eastern Montana, North and South Dakota.

The investigation of the white slave traffic, it is said, is one of the most important reasons for enlarging the office. Since Mr. Bowen arrived in St. Paul some startling information as to the extent of the traffic has been obtained. Several arrests have been made and it is said several others will be made before the December term of the federal grand jury.

## JUROR CENSORED BY JUDGE

Street Conversation Costs Him Posi-  
tion on McNamara Case.

Los Angeles, Cal., Oct. 25.—A chance street conversation started by B. W. Clark, a venireman in the McNamara murder case, with Harry Chandler, vice president and assistant general manager of the Times-Mirror company and son-in-law of General Harrison Gray Otis, publisher of the Los Angeles Times, brought Clark's services as a prospective juror to an abrupt end when he told about it in court. Clark was censured by Judge Walter B. Wells for carelessness and promptly excused on a challenge by the defense, suggested by the court.

Chandler, according to Clark, had said he hoped the talesmen would qualify as a juror. It was said that Chandler was held in no way responsible for the occurrence, so far as the court was concerned.

## BRITISH PARLIAMENT OPENS

Workingmen's Insurance Bill the Prin-  
cipal Business.

London, Oct. 25.—Parliament reassembled for its autumn session. The principal business will be consideration of the Lloyd-George workingmen's insurance bill. It is the most radical measure ever before the British legislature. Provision is made for compulsory and partly voluntary insurance for certain classes of workingmen—workingmen, employers and the state contributing proportionately. The intention is ultimately to make it wholly compulsory and to apply to all classes of workingmen.

## TAFT PARRIES THE QUESTION.

Says Women Can Have Ballot When  
They Want It—Arizona Still Wed-  
ded to Judicial Recall—Kansas Can-  
not Forget Reciprocity—Wanted a  
Senate Humorist.

By ARTHUR W. DUNN.  
Washington, Oct. 25.—(Special.)—Women are winning their way to equal suffrage slowly and not without a great deal of opposition. First there was Wyoming, then Colorado and later Utah and Idaho. It was a number of years before the last of these four mountain states adopted woman suffrage after Wyoming had taken the lead. There was quite a long period before Washington followed. Oregon by rather narrow majorities has rejected woman suffrage, but California, the oldest of the Pacific states, has accepted it by a comparatively small majority. It seems rather strange that woman suffrage should be so much more popular in the far western states, where the men far outnumber the women. In all the states that have adopted it the women are in the minority. It cannot be said that this action has been taken in a hasty and ill considered manner. The progress has been too slow for that. Probably the persistence of the women and the desire that most of them in these states expressed for suffrage won the fight.

Get It When They Want It.  
President Taft has got around the woman suffrage proposition by saying that if the women want to vote they should have what they want. It means that what has long been apparent—that wherever the women of a state are really in earnest and determined they can secure the ballot. Perhaps the same interest shown in eastern states as that which has actuated the women of the west will bring about suffrage for all. It was Uncle Joe Cannon who told a female suffrage delegation that he was in favor of giving votes to women, adding after a pause, in the District of Columbia—an absolutely safe proposition, for no one is allowed to vote in the District.

"Out Again, In Again."  
An Arizona man asserts that the people of that territory will vote the recall out of the constitution, for they know that they will not get statehood unless they do so. But as soon as the state is admitted the recall will go back into the constitution, for the people out there are determined to have it. He told another thing which seems strange in this country. He said that the interest rate in the territory was 12 per cent and money was hard to get at that rate. There is depression in some parts of Arizona owing to the lack of demand for copper, the reason given being that there has been a great decline in the electrical business, which uses a large amount of the copper produced.

New England For Taft.  
Frank Streeter of New Hampshire came to Washington to attend a meeting of the Canadian boundary commission, to which position President Taft appointed him last March, and told a group of newspaper men that New England was for Taft. He intimated that Canadian reciprocity caused considerable differences at one time, but the defeat of the measure has removed those causes of discord.

But Kansas Is Still Sore.  
Senator Bristow claims that Kansas is still smarting and is not for Taft. He said that when Canadian reciprocity seemed assured the farmers of Kansas sold their wheat in great haste, knowing the price would be reduced. When reciprocity was defeated in Canada the price jumped 12 cents a bushel. "That means our American farmers lost just that much on every bushel of wheat they sold that little transaction, and Republicans will have great difficulty in explaining it away."

Schley Spanked Chile.  
Few sketches of the late Admiral Schley mention that he was once the instrument through which Chile received a spanking by the United States. He was in command of the Baltimore at Valparaiso at a time when some demonstration was made against the dignity of the United States, and Schley acted promptly in calling the government to account. There have been few demonstrations in South America of this kind since that time, as we are getting along with our southern neighbors on the broad lines of peace. And yet returned travelers say they do not love the United States any too well.

Who Will Be the Wit?  
If John Sharp Williams decides to be a serious senator, who will be the wit of that body? Dolliver had a wonderful fund of humor, and whenever Elkins could be held in the senate long enough he made things pleasant. Depew made witty speeches occasionally and many witty remarks to his fellows. It looks as if the senate was going to be without its humorist for some time.

The Reason.  
"I can't understand why women want to vote."  
"I can. It's because they can't."

## NOMINATION WITHOUT COST

Governor Foss Spends Nothing in Bay  
State Primary Campaign.

Boston, Oct. 25.—Governor Eugene N. Foss obtained his renomination as Democratic candidate for governor in the recent primaries without the expenditure of a cent.

No statement of expenditures in the campaign was filed by the governor, as prescribed by law, and inquiry as to the reason brought out the fact.

MONTANA YEGGMEN  
SECURE GOOD HAULBlow Safe and Carry Away \$1,-  
200 at Sand Coulee.

Great Falls, Mont., Oct. 25.—Literally blowing the safe to pieces and wrecking the front of the building burglars obtained more than \$1,200 and nearly as much more in negotiable paper from the business place of Oscar A. Dolphson of Sand Coulee, about ten miles south of this city. With all their loot they made their escape so successfully that the officers declare they have no workable clue and nothing which looks like the apprehension of the yeggs.

The work of the cracksmen, according to men familiar with explosives, indicates they were amateurs. The charge, say miners who use explosives frequently, was much too heavy, as proved by the demolished safe and wrecked store front. But with it all there are but two persons in the town who say they heard an explosion and their remembrance of it is indistinct. The loot consisted of more than \$100 in silver, about \$50 in gold and more than \$1,150 in paper. The negotiable papers included \$1,000 in special improvement warrants of the city of Great Falls and they had been registered, making it possible for them to be sold.

## CONFESSES TO OLD CRIME

Homesteader Says He Murdered Com-  
panion Sixteen Years Ago

Aitkin, Minn., Oct. 25.—John Sandberg, who confessed to officers at Blackduck to having murdered a man in Aitkin county sixteen years ago, was brought here and pleaded guilty to murder in the first degree.

Sandberg's story is that he owned a homestead two miles from Grayling in 1895 and that fall he went to North Dakota and worked in the harvest fields with a young man about twenty years old, known to him only as "John." They returned to the homestead together and when hunting Sandberg, who was walking ahead with the only gun, turned and shot John in the head.

As he sank to the ground the murdered man gave a cry and two more shots were fired, according to Sandberg. That cry followed the murderer all these years, he says.

## FARMER FROZEN TO DEATH

Lies Down After Fall Into Creek and  
Succumbs to Cold.

Winnipeg, Oct. 25.—Missing since Saturday and found frozen to death on the prairie was the fate of G. T. McClelland, one of the best known farmers in the Souris, Man., district.

He started out from his home late Saturday night with a wild horse, which upset into a gully, the horse being killed, in Plum Creek coulee, six miles south.

McClelland tried to rescue the horse, but failed. He then walked across a plowed field to the prairie, but being wet through by his fall into the water of the creek became chilled and weak. He lay down and was frozen to death.

## Chauncey Depew, Jr., Robbed.

Longueuil, Ste. Marie, France, Oct. 25.—Chauncey Depew, Jr., who is living at the Chateau d'Annel, has been robbed of valuables, including a watch and stick pin, valued at \$2,800. The police say they have discovered that the jewelry was sold in London by a former employe at the chateau.

## DAY FOR OLD MEN RETURNS

Rule of Young Is Passing, Says "Mid-  
dle Aged Philosopher."

London, Oct. 25.—"Too young at sixty-two," is the slogan that sent a rejuvenating thrill through the elderly men of London. The words stood out in stalwart letters in the bill of contents of a paper, the editorial page of which presented a "middle aged philosopher" assuring the world that the recent rule of young men is passing and that the "old man triumphant" is returning to his ancient mastery of the earth.

"The new lord mayor of London," says the philosopher, "is eighty-one. The winner of a swimming race in the frigid waters of the Serpentine the other day was an athlete of seventy-five. Dorchester is rehearsing a new play by Thomas Hardy, who is nearly seventy-two. The man chosen to save the Unionist party, the Earl of Halsbury, is eighty-six."

Attempt to Solve Manner in Which  
Miss Linnell Met Her Death.

Boston, Oct. 25.—Removed from the grave in the cemetery at Hyannis the body of Ayis Linnell, for whose death by poisoning Rev. C. V. T. Richeson of Cambridge is being held responsible, was brought back to Boston by order of District Attorney Pelletier.

The officials also will make a careful search of Miss Linnell's bathrobe, which was buried with the body, for anything which might have been used as a receptacle for the fatal powder.

It is understood that the examination of the body will be made with only the state's experts in attendance.

## CHILE SECURES WARSHIPS

Strengthens Navy Following Speech  
by President of Peru.

Valparaiso, Chile, Oct. 25.—Replying to what is described here as the bellicose attitude of Peru over the boundary dispute Chile has repurchased the British battleships Triumph and Swiftsure and the papers suggest that another vessel of the dreadnought type be built in the United States.

Washington, Oct. 25.—Chile's aggressive attitude toward Peru is said here to be due directly to a recent speech of President Augusto Leguia of Peru and is a revival of the long standing boundary dispute involving Peru's claim to the ownership of the provinces of Tacna and Arica. Chile was not mentioned, but Chileans interpreted the remarks as a menace and a policy of naval expansion immediately entered upon by Chile.

## Found Dead in Swamp.

Coleman, Minn., Oct. 25.—The nude body of an unidentified man was found by a homesteader, Lawrence Bright, in a swamp twelve miles west of Hibbing, and was brought to this city. Circumstances attending the finding indicate that the dead man was murdered and his body carried to the spot where it was found.

Two Important Chinese Towns  
Fall Into Rebel Hands.

## APPEALS FOR MORE TROOPS

General Yin Tchang Requests Rein-  
forcements at Sinyangchow Before  
Taking the Offensive, as He Claims  
the Revolutionists Are Well Supplied  
With Artillery—Mohammedans May  
Join Hands With Insurgents.

Peking, Oct. 25.—Two important towns, Kiukiang, in the province of Kiangsi, and Sian, capital of Shensi province, have fallen into the hands of the revolutionists, materially extending the area of the uprising, disheartening the government and giving new confidence to revolutionary leaders. Sian was regarded as a government stronghold.

Consular reports from Kiukiang say the people burned the taotai's yamen and declared in favor of the rebels. The imperial troops made no serious resistance.

General Yin Tchang, who commands the government forces, still remains at Sinyangchow. He demands reinforcements before taking the offensive, as he learned, according to his report to the administration here, that the rebels are well supplied with artillery.

A steamer from Ichang crowded with Chinese soldiers reached Wuchang under a white flag.

Ten Meter Point, which is being fortified by the rebels, is considered of the greatest strategic importance, as it commands the railway and river approaches of Hankow.

A message from Hankow says the revolutionaries have advanced to a point eight miles north of that city, near where the imperialists in unascertained numbers are entrenched.

One of the latest messages from Sian says the rebels are making overtures to the Mohammedans in the province of Kansu, who have been in open rebellion since August, and the sender of the messages believe the two revolutionary parties will join forces.

Kaifeng, in the province of Honan, is in a serious position because the local officials practically have abandoned the whole place to the soldiers.

It is officially reported that no news has been received from the Tenth division, which left Chinwangta, Chili, by steamer Oct. 17 for Hankow. Fears are entertained for the loyalty of the garrison at Kiangyin, a strong fort on the lower Yangtze. There is no information here as to the whereabouts of Admiral Shah's gunboats.

## REBELS SHOW BOLD TACTICS

Engage Chinese Imperial Army at  
Many Points.

London, Oct. 25.—A special from Peking says that Monday there was continuous firing and skirmishing between the rebels and imperialists near Hankow. The insurgents displayed bold tactics and engaged the imperialists at many points.

Meanwhile, says the correspondent, the Northern army is pushing its way to the South, advancing with caution and clearing the ground in front scientifically with artillery. The remainder of the government forces is fighting without any regard to order or method.

## REPORTS IMPERIAL SUCCESS

General Yin Tchang Claims to Have  
Beaten Rebels

Shanghai, Oct. 25.—A Chinese official dispatch from Yin Tchang, the war minister, reports imperial successes Oct. 20 and 21 at Sinyangchow. The dispatch says the rebels had more than 600 killed, while the losses of the imperialists were few.

Communication with Hunan, even by wireless, is cut off. The troops in that province recently were defeated, but the trouble was settled by the payment of their wages.

## NATIVES AFRAID OF AIRSHIPS

Italian Army Aviators Are Spreading  
Terror in Tripoli.

Rome, via the Frontier, Oct. 25.—Messages from the interior of Tripoli say that reports of "flying Italians" with destructive machines" everywhere are causing consternation and terror.

Some of the native tribes have decided to migrate to points further into the interior, while others are burning their valuables. Bolder tribesmen are devising means to attract the aeroplanes into positions where they can be fired on.

In military circles it is thought the aeroplanes are helping to influence the natives to surrender.

## Philadelphia Wins Third Game.

Philadelphia, Oct. 25.—Hitting the great Matthewson to all corners of the field the Philadelphia American team defeated the New York Nationals at Shibe park for the third successive time by the score of 4 to 2 and the American league champions now need but a single game to give them the world's baseball honors for the second year in succession. The victors not only outbatted the National leaguers, but also outfielded them and showed more alertness on the bases.

TAFT ANSWERS  
COURT CRITICS

## RECEPTION AT MINNEAPOLIS

Large Crowd Fills Auditorium and Thousands Are Turned Away—Audience Listens Attentively as the President Discusses in Detail the Tariff Question, Control of Trusts and Railway Rate Regulation.

Minneapolis, Oct. 25.—Not on any of his visits here has President Taft been given such a cordial welcome as he received and never has he appeared to better advantage. Never has he made a more vigorous speech in this state and never before have Minnesota people listened to him with such interest and attention.

If men in the big audience that greeted him disagreed with him on any point they at least showed that they were intensely interested in the questions now before the people of the United States.

After an introduction by Cyrus Northrop, in which the former president of the University of Minnesota and former instructor of Mr. Taft pictured the president as the greatest of progressives because of his work in behalf of universal peace, the president made an address of an hour in which he discussed in detail the tariff question, the control of trusts and the railroad regulation question.

The discussion of the trust question gave the president occasion to repeat his answer to the charge that he had set up the supreme court with the understanding that the judges would emasculate the anti-trust act and in more vigorous language than before.

## Statement Without Foundation.

"Of course," he said, "there is not the slightest foundation in such a statement. Of course, I never had an understanding with any judge I ever put upon the bench upon any subject. "And the man, or the men, who make such a charge lightly reveal the fact that they have no realization of the integrity, the corruption that would be involved in such an understanding." The president, who had aroused the audience to tumultuous cheering with this remark, added that the appointment of the supreme court justices "is the most sacred duty that a president has to perform and a man may well go into his closet and pray to God for guidance that he may appoint to that high tribunal men of high courage, men of intelligence, men of profound wisdom."

The Auditorium, which seats close to 3,000, was filled to capacity more than an hour before the arrival of the president and a crowd fully as big was standing outside trying to get in or at least get a glimpse of the big man.

Just how many were turned away cannot be estimated, but many more than got in failed to hear the executive.

## DANES RIDICULE DR. COOK

Explorer Nansen Leads Disturbers at American's Lecture.

Copenhagen, Oct. 25.—Dr. Frederick A. Cook's attempt to vindicate his reputation by a lecture in the hall where two years ago he addressed the royal family and some of the most prominent people of Denmark under the auspices of the Geographical society on the occasion of his triumphal entrance into the capital resulted in extremely riotous scenes and he finally was compelled to retire indignantly by the back door.

The meeting was turbulent throughout. A small fraction of the audience supported Dr. Cook and applauded his efforts. Others hissed continually with the result that the two sides almost came to blows.

Dr. Norman Nansen, the Danish explorer, who formerly supported Cook, started the trouble by loudly denouncing Cook as a swindler.

Indianapolis, Oct. 25.—How Dr. Helene Knabe, former state bacteriologist, found in bed with her head almost severed by the slash of a knife, came to her death remains a mystery to the police.

Jefferson Haynes, the negro janitor of the apartment house where Dr. Knabe lived, was detained on suspicion that he knew something of the circumstances of her death, but the detectives let him go after he had withstood for hours their attempts to extract incriminating information.

Dr. Knabe was thirty-five years old and of strikingly attractive appearance. She never had been married.

## Sembrich Loses on Stocks.

New York, Oct. 25.—Severe, almost sensational, financial losses have forced Mme. Marcella Sembrich to return to the concert platform and to the stage, if an engagement there should be forthcoming. It is said her losses on the stock exchange during the last two years have amounted to \$2,000,000. The diva is reported to have speculated in the hope of increasing her wealth.

DRAFTS FORM OF  
LIABILITY LAW

Federal Compensation Commission Agrees on Basis.

## FINDINGS ARE NOT FINAL

Hearings Will Be Held in Washington Beginning With Nov. 6, When Persons Interested May Appear and Offer Suggestions—Plan Provides for Direct Payment for Injuries and Such Compensation Is Made Compulsory.

Washington, Oct. 25.—After a two-day executive session the employers' liability and workmen's compensation commission reached an agreement on the basis of legislation to be recommended to congress and adjourned until Monday, Nov. 6, when the commission will meet here for the purpose of hearing suggestions from persons interested in the proposed legislation. The findings of the commission are not final, but it is not probable that they materially will be changed.

The law proposed will provide for direct payment by interstate carriers for injuries sustained by their employees and such payment is made compulsory. Senator Sutherland, chairman of the commission, supplied an outline of the proposed plan, as follows:

"The law is to provide payment of compensation by interstate carriers engaged in interstate transportation to employees sustaining injury by accident while engaged in such transportation, except in cases of willful misconduct to be hereafter specified.

"The compensation is to be paid by the employer directly and not out of a general fund created by any form of taxation.

"The law shall be in form compulsory and not subject to election by either employer or employee.

"The remedy provided by such law to be exclusive of any common law or other statutory remedy.

## Applies to All Accidents.

"To apply to all accidents resulting to the employee while in the course of his employment, except those where the disability continues for a period of two weeks or less; the employer, however, to furnish medical and surgical assistance to an amount not exceeding \$200.

"Payments of compensation to be made under the law shall be made periodically and not in lump sum, with, however, appropriate provision for commutation at any time after the lapse of six months on the application of either party.

"The amount of payments to be limited to a minimum and maximum sum and not to continue beyond a specified term of years to be hereafter fixed. The question as to whether or not this limitation shall apply to permanent total disability is left open.

"The amount of all payments to be based upon a percentage of the wages received by the injured employee at the time of the injury to be hereafter fixed.

"All claims arising under the law shall be nonassailable and exempt from levy.

"In case of death payments to be made to dependents, including alien dependents.

"All claims under the law to be made preferred lien.

"Whenever any railroad company and its employees have agreed or shall hereafter agree upon a plan of compensation which is as favorable to the employees as the provision of this law such plan may be substituted for the law, provided that wherever any such plan the employees contribute to the compensation fund the plan shall contain beneficial provisions in addition to the schedule of payments equivalent to such contribution."

## INTIMATES JURY PACKING

Prosecution in Mrs. McRee Case Asks Discharge of Veniremen.

Opelousas, La., Oct. 25.—Indirectly charging the sheriff with favoritism in summoning veniremen for the trial of Mrs. See Runge McRee on the charge of murdering Allen Garland, the Tulane college student, the state moved to dismiss the panel of 150 veniremen. The motion charges that a man active in behalf of the defense has accompanied Sheriff Swords on his trips summoning veniremen.

As a counter charge the defense asked that District Attorney Garland, a relative of the accused, be barred from prosecuting the case, be compelled to cease from directing it.

## Rate War on Iron Range.

Duluth, Oct. 25.—Of vital importance to shippers of ore is the announcement made by prominent mining men of this district that the Northern Pacific railroad will run spurs to Cuyuna range and compete with the Soo road for the ore business there. It is stated further that a rate war will result between the two roads.

## MISS LA FOLLETTE.

## WILL BE MARRIED SATURDAY

Miss Lola La Follette Announces Date of Wedding

Louisville, Oct. 25.—As she was leaving here for Washington Miss Lola La Follette, daughter of Senator Robert M. La Follette of Wisconsin, told friends she would be married at the capital Saturday to George Middleton, playwright, to whom her engagement recently was announced.

It had not been expected the wedding would be so soon. Miss La Follette, who is an enthusiastic suffragist, read a play before the woman suffrage convention in session here.

IS FORERUNNER OF  
MANY OTHER CASES

Suit Filed at St. Paul to Dissolve Alleged Lumber Trust.

St. Paul, Oct. 25.—That the suit commenced in the United States circuit court to dissolve the so called lumber trust is a forerunner of suits dissolving other trusts, which will be instituted soon in St. Paul, was the belief prevalent at the federal building.

The force of the department of justice, which heretofore has been composed of only J. W. Bowen, special agent, will be greatly augmented, it is said. It is planned to have an assistant attorney general located in St. Paul permanently.

There probably will be from six to eight inspectors here and the office will have charge of prosecutions for federal offenses and government investigations in Minnesota, Eastern Montana, North and South Dakota.

The investigation of the white slave traffic, it is said, is one of the most important reasons for enlarging the office. Since Mr. Bowen arrived in St. Paul some startling information as to the extent of the traffic has been obtained. Several arrests have been made and it is said several others will be made before the December term of the federal grand jury.

## JUROR CENSORED BY JUDGE

Street Conversation Costs Him Position on McNamara Case.

Los Angeles, Cal., Oct. 25.—A chance street conversation started by B. W. Clark, a venireman in the McNamara murder case, with Harry Chandler, vice president and assistant general manager of the Times-Mirror company and son-in-law of General Harrison Gray Otis, publisher of the Los Angeles Times, brought Clark's services as a prospective juror to an abrupt end when he told about it in court. Clark was censured by Judge Walter Bordwell for carelessness and promptly excused on a challenge by the defense, suggested by the court.

Chandler, according to Clark, had said he hoped the talesmen would qualify as a juror. It was said that Chandler was held in no way responsible for the occurrence, so far as the court was concerned.

## BRITISH PARLIAMENT OPENS

Workingmen's Insurance Bill the Principal Business.

London, Oct. 25.—Parliament reassembled for its autumn session. The principal business will be consideration of the Lloyd-George workingmen's insurance bill. It is the most radical measure ever before the British legislature. Provision is made for compulsory and partly voluntary insurance for certain classes of workingmen—workingmen, employers and the state contributing proportionately. The intention is ultimately to make it wholly compulsory and to apply to all classes of workingmen.

## League Meeting Called.

Washington, Oct. 25.—President John Hays Hammond of the National Republican league issued a call for a meeting of the executive committee of the league to be held here Dec. 12, the day set for the national Republican committee meeting.

PROGRESS OF  
EQUAL SUFFRAGE

Has Won In States Where Women Are In Minority.

## TAFT PARRIES THE QUESTION.

Says Women Can Have Ballot When They Want It—Arizona Still Wedded to Judicial Recall—Kansas Cannot Forget Reciprocity—Wanted a Senate Humorous.

By ARTHUR W. DUNN.  
Washington, Oct. 25.—[Special.]—Women are winning their way to equal suffrage slowly and not without a great deal of opposition. First there was Wyoming, then Colorado and later Utah and Idaho. It was a number of years before the last of these four mountain states adopted woman suffrage after Wyoming had taken the lead. There was quite a long period before Washington followed. Oregon by rather narrow majorities has rejected woman suffrage, but California, the oldest of the Pacific states, has accepted it by a comparatively small majority. It seems rather strange that woman suffrage should be so much more popular in the far western states, where the men far outnumber the women. In all the states that have adopted it the women are in the minority. It cannot be said that this action has been taken in a hasty and ill considered manner. The progress has been too slow for that. Probably the persistence of the women and the desire that most of them in these states expressed for suffrage won the fight.

## Got It When They Want It.

President Taft has got around the woman suffrage proposition by saying that if the women want to vote they should have what they want. It means what has long been apparent—that wherever the women of a state are really in earnest and determined they can secure the ballot. Perhaps the same interest shown in eastern states as that which has actuated the women of the west will bring about suffrage for all. It was Uncle Joe Cannon who told a female suffrage delegation that he was in favor of giving votes to women, adding after a pause, in the District of Columbia—an absolutely safe proposition, for no one is allowed to vote in the District.

## "Out Again, In Again."

An Arizona man asserts that the people of that territory will vote the recall out of the constitution, for they know that they will not get statehood unless they do so. But as soon as the state is admitted the recall will go back into the constitution, for the people out there are determined to have it. He told another thing which seems strange in this country. He said that the interest rate in the territory was 12 per cent and money was hard to get at that rate. There is depression in some parts of Arizona owing to the lack of demand for copper, the reason given being that there has been a great decline in the electrical business, which uses a large amount of the copper produced.

## New England For Taft.

Frank Streeter of New Hampshire came to Washington to attend a meeting of the Canadian boundary commission, to which position President Taft appointed him last March, and told a group of newspaper men that New England was for Taft. He intimated that Canadian reciprocity caused considerable differences at one time, but the defeat of the measure has removed those causes of discontent.

## But Kansas Is Still Sore.

Senator Bristow claims that Kansas is still smarting and is not for Taft. He said that when Canadian reciprocity seemed assured the farmers of Kansas sold their wheat in great haste, knowing the price would be reduced. When reciprocity was defeated in Canada the price jumped 12 cents a bushel. "That means our American farmers lost just that much on every bushel of wheat they sold. It will be hard to make them forget that little transaction, and Republicans will have great difficulty in explaining it away."

## Schley Spanked Chile.

Few sketches of the late Admiral Schley mention that he was once the instrument through which Chile received a spanking by the United States. He was in command of the Baltimore at Valparaiso at a time when some demonstration was made against the dignity of the United States, and Schley acted promptly in calling the government to account. There have been few demonstrations in South America of this kind since that time, as we are getting along with our southern neighbors on the broad lines of peace. And yet returned travelers say they do not love the United States any too well.

## Who Will Be the Wit?

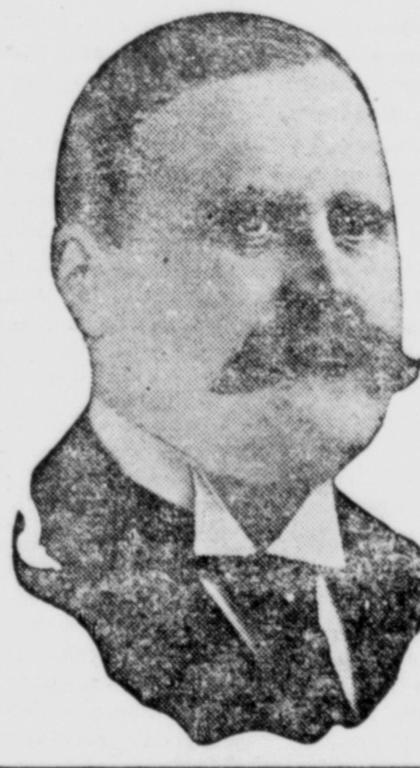

If John Sharp Williams decides to be a serious senator, who will be the wit of that body? Dooliver had a wonderful fund of humor, and whenever Elkins could be held in the senate long enough he made things pleasant. Depew made witty speeches occasionally and many witty remarks to his fellows. It looks as if the senate was going to be without its humorist for some time.

## The Reason.

"I can't understand why women want to vote."  
"I can. It's because they can't."

## EUGENE N. FOSS.

Secures Renomination Without Spending Any Money.

## NOMINATION WITHOUT COST

Governor Foss Spends Nothing in Bay State Primary Campaign.

Boston, Oct. 25.—Governor Eugene N. Foss obtained his renomination as Democratic candidate for governor in the recent primaries without the expenditure of a cent.

No statement of expenditures in the campaign was filed by the governor, as prescribed by law, and inquiry as to the reason brought out the fact.

MONTANA YEGGMEN  
SECURE GOOD HAUL

Blow Safe and Carry Away \$1,200 at Sand Coulee.

Great Falls, Mont., Oct. 25.—Literally blowing the safe to pieces and wrecking the front of the building burglars obtained more than \$1,200 and nearly as much more in negotiable paper from the business place of Oscar A. Dolphson of Sand Coulee, about ten miles south of this city. With all their loot they made their escape so successfully that the officers declare they have no workable clue and nothing which looks like the apprehension of the yeggmen.

The work of the cracksmen, according to men familiar with explosives, indicates they were amateurs. The charge, say miners who use explosives frequently, was much too heavy, as proved by the demolished safe and wrecked store front. But with it all there are but two persons in the town who say they heard an explosion and their remembrance of it is indistinct. The loot consisted of more than \$100 in silver, about \$50 in gold and more than \$1,150 in paper. The negotiable papers included \$1,000 in special improvement warrants of the city of Great Falls and they had been registered, making it possible for them to be sold.

## CONFESSES TO OLD CRIME

Homesteader Says He Murdered Companion Sixteen Years Ago

Aitkin, Minn., Oct. 25.—John Sandberg, who confessed to officers at Blackduck to having murdered a man in Aitkin county sixteen years ago, was brought here and pleaded guilty to murder in the first degree.

Sandberg's story is that he owned a homestead two miles from Grayling in 1895 and that fall he went to North Dakota and worked in the harvest fields with a young man about twenty years old, known to him only as "John." They returned to the homestead together and when hunting Sandberg, who was walking ahead with the only gun, turned and shot John in the head.

As he sank to the ground the murdered man gave a cry and two more shots were fired, according to Sandberg. That cry has followed the murderer all these years, he says.

## FARMER FROZEN TO DEATH

Lies Down After Fall Into Creek and Succumbs to Cold.

Winnipeg, Oct. 25.—Missing since Saturday and found frozen to death on the prairie was the fate of G. T. McClelland, one of the best known farmers in the Souris, Man. district.

He started out from his home late Saturday night with a wild horse, which upset into a gully, the horse being killed, in Plum Creek coulee, six miles south.

McClelland tried to rescue the horse, but failed. He then walked across a plowed field to the prairie, but being wet through by his fall into the water of the creek became chilled and weak. He lay down and was frozen to death.

## Chauncey Depew, Jr., Robbed.

Longueuil, Ste. Marie, France, Oct. 25.—Chauncey Depew, Jr., who is living at the Chateau d'Annel, has reported to the police he has been robbed of valuables, including a watch and stick pin, valued at \$2,800. The police say they have discovered that the jewelry was sold in London by a former employee at the chateau.

## DAY FOR OLD MEN RETURNS

Rule of Young Is Passing, Says "Middle Aged Philosopher."

London, Oct. 25.—"Too young at sixty-two," is the slogan that sent a rejuvenating thrill through the elderly men of London. The words stood out in stalwart letters in the bill of contents of a paper, the editorial page of which presented a "middle aged philosopher" assuring the world that the recent rule of young men is passing and that the "old man triumphant" is returning to his ancient mastery of the earth.

"The new lord mayor of London," says the philosopher, "is eighty-one. The winner of a swimming race in the frigid waters of the Serpentine the other day was an athlete of seventy-five. Dorchester is rehearsing a new play by Thomas Hardy, who is nearly seventy-two. The man chosen to save the Unionist party, the Earl of Halsbury, is eighty-six."

## WILL EXHUME GIRL'S BODY

Attempt to Solve Manner in Which Miss Linnell Met Her Death.

Boston, Oct. 25.—Removed from the grave in the cemetery at Hyannis the body of Aylis Linnell, for whose death by poisoning Rev. C. V. T. Richeson of Cambridge is being held responsible, was brought back to Boston by order of District Attorney Pelletier.

The officials also will make a careful search of Miss Linnell's bathrobe, which was buried with the body, for anything which might have been used as a receptacle for the fatal powder.

It is understood that the examination of the body will be made with only the state's experts in attendance.

## CHILE SECURES WARSHIPS

Strengthens Navy Following Speech by President of Peru.

Valparaiso, Chile, Oct. 25.—Replying to what is described here as the bellicose attitude of Peru over the boundary dispute Chile has repurchased the British battleships Triumph and Swiftsure and the papers suggest that another vessel of the dreadnought type be built in the United States.

Washington, Oct. 25.—Chile's aggressive attitude toward Peru is said here to be due directly to a recent speech of President Augusto Leguia of Peru and is a revival of the long standing boundary dispute involving Peru's claim to the ownership of the provinces of Tacna and Arica. Chile was not mentioned, but Chileans interpreted the remarks as a menace and a policy of naval expansion immediately entered upon by Chile.

## Found Dead in Swamp.

Cojohate, Minn., Oct. 25.—The nude body of an unidentified man was found by a homesteader, Lawrence Bright, in a swamp twelve miles west of Hibbing, and was brought to this city. Circumstances attending the finding indicate that the dead man was murdered and his body carried to the spot where it was found.

Two Important Chinese Towns  
Fall Into Rebel Hands.

## APPEALS FOR MORE TROOPS

General Yin Tchang Requests Reinforcements at Sinyangchow Before Taking the Offensive, as He Claims the Revolutionists Are Well Supplied With Artillery—Mohammedans May Join Hands With Insurgents.

Peking, Oct. 25.—Two important towns, Kiukiang, in the province of Kiangsi, and Sian, capital of Shensi province, have fallen into the hands of the revolutionists, materially extending the area of the uprising, disheartening the government and giving new confidence to revolutionary leaders. Sian was regarded as a government stronghold.

Consular reports from Kiukiang say the people burned the tatar's yamen and declared in favor of the rebels. The imperial troops made no serious resistance.

General Yin Tchang, who commands the government forces, still remains at Sinyangchow. He demands reinforcements before taking the offensive, as he learned, according to his report to the administration here, that the rebels are well supplied with artillery. A steamer from Ichang crowded with Chinese soldiers reached Wuchang under a white flag.

Ten Meter Point, which is being fortified by the rebels, is considered of the greatest strategic importance, as it commands the railway and river approaches of Hankow.

A message from Hankow says the revolutionaries have advanced to a point eight miles north of that city, near where the imperialists in unascertained numbers are entrenched.

One of the latest messages from Sian says the rebels are making overtures to the Mohammedans in the province of Kansu, who have been in open rebellion since August, and the sender of the messages believe the two revolutionary parties will join forces.

Kaifeng, in the province of Honan, is in a serious position because the local officials practically have abandoned the whole place to the soldiers.

It is officially reported that no news has been received from the Tenth division, which left Chinwangta, Chihli, by steamer Oct. 17 for Hankow. Fears are entertained for the loyalty of the garrison at Kiangyin, a strong fort on the lower Yangtze. There is no information here as to the whereabouts of Admiral Shah's gunboats.

## REBELS SHOW BOLD TACTICS

Engage Chinese Imperial Army at Many Points.

London, Oct. 25.—A special from Peking says that Monday there was continuous firing and skirmishing between the rebels and imperialists near Hankow. The insurgents displayed bold tactics and engaged the imperialists at many points.

Meanwhile, says the correspondent, the Northern army is pushing its way to the South, advancing with caution and clearing the ground in front scientifically with artillery. The remainder of the government forces is fighting without any regard to order or method.

## REPORTS IMPERIAL SUCCESS

General Yin Tchang Claims to Have Beaten Rebels

Shanghai, Oct. 25.—A Chinese official dispatch from Yin Tchang, the war minister, reports imperial successes Oct. 20 and 21 at Sinyangchow. The dispatch says the rebels had more than 600 killed, while the losses of the imperialists were few.

Communication with Hunan, even by wireless, is cut off. The troops in that province recently were defeated, but the trouble was settled by the payment of their wages.

## NATIVES AFRAID OF AIRSHIPS

Italian Army Aviators Are Spreading Terror in Tripoli.

Rome, via the Frontier, Oct. 25.—Messages from the Interior of Tripoli say that reports of "flying Italians" with destructive machines" everywhere are causing consternation and terror.

Some of the native tribes have decided to migrate to points further into the interior, while others are burning their valuables. Bold tribesmen are devising means to attract the aeroplanes into positions where they can be fired on.

In military circles it is thought the aeroplanes are helping to influence the natives to surrender.

## Philadelphia Wins Third Game.

Philadelphia, Oct. 25.—Hitting the great Matthewson to all corners of the field the Philadelphia American team defeated the New York Nationals at Shibe park for the third successive time by the score of 4 to 2 and the American league champions now need but a single game to give them the world's baseball honors for the second year in succession. The victors not only outbatted the National leaguers, but also outfielded them and showed more alertness on the bases.

## CUYUNA RANGE BOOSTS FIGURES

County Auditor and Force Busy Compiling County Valuations and Figuring Tax Rate

THE VALUATION IS \$6,584,742

Large Villages Swell Assessed Valuation—Some Mines to be Taxed in 1912

The county auditor and his force have been busy the past few weeks compiling the valuations and figuring the tax rate in the various towns and school districts for the tax lists of 1911, which are to be turned over to the treasurer for collection on the first of January next.

The total assessed valuation for the county as equalized by the county board and the Minnesota Tax commission, is \$6,584,742, and is composed of items as follows:

Real estate	\$5,549,285
Mineral leases and mineral reserves	94,511
Personal property	940,946

Total \$6,584,742

After making all deductions for exemptions, the taxable valuation upon which the levies will be computed becomes \$6,330,462, a gain of \$66,443 over last year. Of this amount, \$2,281,566 is returned from the city of Brainerd, and \$4,048,896 from the balance of the county.

Most of the increased valuation comes from the villages on the Cuyuna range where new plats are being laid and new buildings going up, and more personal property in evidence. The city of Brainerd shows a very substantial increase, however, as does also the village of Pequot in the northern part of the county. The following figures show the comparative valuation for the past two years in several of the towns:

	1910	1911
City of Brainerd	\$2,194,980	\$2,281,566
School Dist. No. 7, Deerwood	162,313	198,040
School Dist. No. 51	107,161	269,597
School Dist. No. 104, Cuyuna	107,608	127,717

District No. 51 includes both Brainerd and Crosby.

The levies have now all been reported to the county auditor from the schools and towns and the rates have practically all been computed, and most of the books figured. The rates will run about the same as last year, that for Brainerd working out at 3 1/2 mills, which is exactly the same

as for 1910. Although the state rate is 1.18 mills higher than a year ago, it was possible to save some of the county levies a trifle, also the Brainerd public school, and thus keep the rate down, or perhaps it would be better to say, not permit it to go any higher.

The rate in some of the country districts is as low as 20 mills, while in some of the smaller districts with a bond to pay, it will crowd well up to 50 mills, the average being from 25 to 40. The fast-growing villages can not avoid having a high tax rate this year, being compelled to provide without delay extra school buildings and teachers and other local necessities. The rate in the village of Deerwood will be an even 50 mills and the same in Cuyuna and Pequot. Crosby will carry 43 3/4 mills and Dist. No. 66 at Jenkins will labor under 50 mills. In 1912 when the real estate is valued by the assessors again some of the mining properties will begin to be entered for taxation, which will very materially increase the valuation in many of these districts, and the rate will, by this means, be brought down to normal once more.

## SOO AND N. P. ABOUT TO CLASH

Great Railroads Preparing to Battle For the Rich Cuyuna Ore Business

### SOO TO EXTEND SUPERIOR DOCK

Hauling of South Range Ore Practically in Hands of Northern Pacific Railway

A fight between the Soo Line and the Northern Pacific for the business of hauling the iron ore from the new Cuyuna range to Superior is imminent judging from the latest developments in railroad circles. In fact the preliminary moves in the fight have been made by both the Soo and the Hill road.

The Soo has already taken steps looking to the extension of its new ore dock on St. Louis bay at Superior. Whitney Brothers, the Superior marine contractors have driven test piles from the present end of the Soo dock to the dock line to test the character of the foundation upon which the extension to the dock will be erected.

Information as to when the dock will be extended was not forthcoming from local officials of the Soo. Unofficial information, of a reliable character has it that the work will be available next season when the road will be hauling ore from several mines in addition to the Kennedy which shipped this season.

The Northern Pacific's first move has been on the Cuyuna range where a contract has been let for the construction of a spur from the present main line at Deerwood, Minn., to section 30, which will be shipping ore next season. The contracts for further extensions of the Northern Pacific lines on the south range are to be let shortly.

Extension to the north range which territory is now monopolized by the Soo, are also contemplated by the Northern Pacific.

In connection with the activity of the Hill line on the Cuyuna range, some move is looked for in Superior shortly to provide the necessary ore dock facilities. The dock will undoubtedly be located on the property owned by the road on the Superior bayfront, just north of the Nemadji river. This is just across the river from the ore docks of the Great Northern road.

The Northern Pacific will have some advantage over the Soo in getting the Cuyuna ore hauling business from the fact that it owns the Northwestern Development company, a subsidiary which holds large tracts of ore bearing land. When this land is leased for mining purposes, as some of it already has been, the contracts will specify that the ore is to be shipped over the Northern Pacific road.

The so-called south range of the Cuyuna is controlled by the Northwestern Development company. On this range shafts are being sunk by the M. A. Hanna company, the Pickands-Mather company, and other mining concerns. This will soon be shipping and the ore will be moved over the Northern Pacific.

The Soo has contracts with large numbers of mine owners for the haul-

ing of their ore. The present rate of 65 cents a ton is to be reduced to 60 cents as soon as the movement over the road reaches 2,000,000 tons annually.

So far as Superior is concerned, the fight for the ore business between the two big railroad systems cannot but result in big improvements to the local terminals of the lines involved. Whichever one wins out will be compelled to expend large sums of money here before it is able to successfully hold the major portion of the business.

A Medicine That Gives Confidence Is Foley's Honey and Tar Compound. Mrs. T. J. Adams, 522 No. Kansas Ave., Columbus, Kas., writes: "For a number of years my children have been subject to coughs and colds. I used Foley's Honey and Tar Compound and found that it cured their coughs and colds, so I keep it in the house all the time." Refuse substitutes. For sale by all druggists.

#### FRESH AIR LINE

Automobiles and Progressive Luncheon of 7th St. Norwegian Lutheran Church Well Patronized

The "Fresh Air Line," whose central station was at the Seventh street Norwegian Lutheran church and whose general passenger agent was Sam Engbretson, did a great business last night. The train dispatcher was a new man on the job and barring one delay at the start-off, the automobile coach system worked well and the crowds waiting for a ride packed the basement of the church and made a rush for cars something like fair time at the twin cities.

The writer got away in car No. 1, driven by J. A. Erickson, chairman of the board of county commissioners. With six passengers on board he left the church for the first station, Saladville, the home of Mr. and Mrs. Carl J. Anderson, 324 Broadway, where the ladies and gentlemen entered the dining room and were served with their choice of three salads. Mr. Erickson returned to the church with his auto and picked up another passenger list.

Henry Rosko gathered his passengers, left them at Station No. 1 and gathered the six who had eaten salads at the Anderson residence and then rushed through the darkness to station No. 2, Sancofeevichville, the home of Mr. and Mrs. Peter Olson at 1323 Oak street. Here hot coffee and sandwiches were served.

Harry Patek, in his E. M. F., left the church, dropped his passengers at No. 1 station, picked up some salad people, dropped them at station No. 2, picked up those who had finished eating and whirled them down Oak street into the country to the old Dodd place, now station No. 3, on the "Fresh Air Line" and the home of Mr. and Mrs. T. J. Newgard. Here ice cream and cake were served. Mr. Patek returned to the church.

Stanley Vanek carried another list of passengers, going the rounds of the stations and picked up the original six at station 3 and took them to the home of Attorney and Mrs. Gustav Halverson, who were in charge of the last stopping place. Mr. and Mrs. Halverson, newly married, have a pretty home at 1608 Oak street,

## The Tailor Dressed Woman Is Welcome Everywhere

There's no use talking—clothes DO count. You know it yourself from your own experience.

Let a fashionably dressed woman enter a room and all eyes are instinctively turned toward her. Let her go marketing and she receives more individual attention and consideration than her less attractive sister is shown.

It's unjust we know—but it's true. There's a feeling akin to reverence for the smartly tailored woman. She carries with her an air of refinement and good taste that instinctively commands respect from all classes.

When you see such a woman, don't envy her. Have YOUR clothes made-to-order and be tailor-dressed yourself.

### Our Tailoring Department Is At Your Service

The best that this land affords in snappy, up-to-the-minute tailoring—the cream of the most fashionable weaves that the mills produce, and the very latest designs from the style centres are yours, here to choose from at prices so reasonable you'll wonder how we do it.

The answer is simply this:—We are the local exclusive representatives of the American Ladies Tailoring Company of Chicago—America's Master Tailors for women—who by means of their scientific organization and expert tailoring service are able to produce better ladies garments than ever before at prices within your easy reach.

It will pay you well to drop in and see our magnificent Fall display of this famous made-to-order line next time you are in our neighborhood.

No obligations to buy.

#### TWO WEDDINGS

Peterson-Olson Nuptials in Brainerd, Olson-Carlson Wedding in Minneapolis

On Monday evening Arthur Peterson, of Brainerd, and Miss Sena Olson, of Deerwood, were married at the parsonage of Rev. M. L. Hostager, pastor of the Seventh Street Norwegian Lutheran church. Miss Ethel Olson, a niece of the bride and John Olson, her brother, attended the couple. They will reside at 909 South Fourteenth street. The groom is well known in the city and is employed at the shops. Their many friends wish them much happiness and prosperity. They left on their wedding trip to Minneapolis and on Tuesday morning attended the wedding of their friends, mentioned herewith.

Andrew Olson and Miss Ida Carlson, of Deerwood, were married at Minneapolis on Tuesday morning. The groom is a brother of the bride Mrs. Peterson in the first wedding. He is well known on the Cuyuna range where he is employed as a

driller. The couple will make their home in Deerwood. The Dispatch extends congratulations to both pairs of newly weds and hopes their path through life will be strewn with roses.

The following account of the wedding of Dr. George W. Stivers, of Superior, Wis., to Miss Mayme MacQuarrie is of interest for the groom is the brother of Mrs. C. H. Kylo of this city. The Superior Telegram states: "Miss Mayme MacQuarrie was married at eight o'clock Monday evening to Dr. George W. Stivers, of Superior. Rev. L. K. Grimes, pastor of the Hammond Avenue Presbyterian church, officiated, performing

the ceremony at the manse, 1611 Hammond avenue. The attending couple were Miss Maude Smith and George Lange, both now of Duluth, and immediately after the service was completed the bridal party repaired to the home of the bride's parents, Mr. and Mrs. William D. MacQuarrie, 1303 Grand avenue, where a sumptuous wedding supper was served to a company of about 30 relatives and friends.

"Dr. and Mrs. Stivers left last night after the festivities for their future home, 1312 North Fourteenth street, where they have already taken up housekeeping. Dr. Stivers, who is a mechano-therapist, has been practicing in Superior for about three years."

## CUYUNA RANGE BOOSTS FIGURES

County Auditor and Force Busy Compiling County Valuations and Figuring Tax Rate

THE VALUATION IS \$6,584,742

Large Villages Swell Assessed Valuation—Some Mines to be Taxed in 1912

The county auditor and his force have been busy the past few weeks compiling the valuations and figuring the tax rate in the various towns and school districts for the tax lists of 1911, which are to be turned over to the treasurer for collection on the first of January next.

The total assessed valuation for the county as equalized by the county board and the Minnesota Tax commission, is \$6,584,742, and is composed of items as follows:

Real estate	\$5,549,285
Mineral leases and mineral reserves	94,511
Personal property	940,946
Total	\$6,584,742

After making all deductions for exemptions, the taxable valuation upon which the levies will be computed becomes \$6,330,462, a gain of \$26,443 over last year. Of this amount, \$2,281,566 is returned from the city of Brainerd, and \$4,048,896 from the balance of the county.

Most of the increased valuation comes from the villages on the Cuyuna range where new plats are being laid and new buildings going up, and more personal property in evidence. The city of Brainerd shows a very substantial increase, however, as does also the village of Pequot in the northern part of the county. The following figures show the comparative valuation for the past two years in several of the towns:

	1910	1911
City of Brainerd	\$2,194,980	\$2,281,566
School Dist. No. 7, Deerwood	162,313	198,040
School Dist. No. 51	107,161	269,597
School Dist. No. 104, Cuyuna	107,608	127,717

District No. 51 includes both Brainerd and Crosby.

The levies have now all been reported to the county auditor from the schools and towns and the rates have practically all been computed, and most of the books figured. The rates will run about the same as last year, that for Brainerd working out at 3 1/2 mills, which is exactly the same

as for 1910. Although the state rate is 1.18 mills higher than a year ago, it was possible to save some of the county levies a trifle, also the Brainerd public school, and thus keep the rate down, or perhaps it would be better to say, not permit it to go any higher.

The rate in some of the country districts is as low as 20 mills, while in some of the smaller districts with a bond to pay, it will crowd well up to 50 mills, the average being from 25 to 40. The fast-growing villages can not avoid having a high tax rate this year, being compelled to provide without delay extra school buildings and teachers and other local necessities. The rate in the village of Deerwood will be an even 50 mills and the same in Cuyuna and Pequot. Crosby will carry 43 3-4 mills and Dist. No. 66 at Jenkins will labor under 50 mills. In 1912 when the real estate is valued by the assessors again some of the mining properties will begin to be entered for taxation, which will very materially increase the valuation in many of these districts, and the rate will, by this means, be brought down to normal once more.

## SOO AND N. P. ABOUT TO CLASH

Great Railroads Preparing to Battle For the Rich Cuyuna Ore Business

SOO TO EXTEND SUPERIOR DOCK

Hauling of South Range Ore Practically in Hands of Northern Pacific Railway

A fight between the Soo Line and the Northern Pacific for the business of hauling the iron ore from the new Cuyuna range to Superior is imminent judging from the latest developments in railroad circles. In fact the preliminary moves in the fight have been made by both the Soo and the Hill road.

The Soo has already taken steps looking to the extension of its new ore dock on St. Louis bay at Superior. Whitney Brothers, the Superior marine contractors have driven test piles from the present end of the Soo dock to the dock line to test the character of the foundation upon which the extension to the dock will be erected.

Information as to when the dock will be extended was not forthcoming from local officials of the Soo. Unofficial information, of a reliable character has it that the work will be available next season when the road will be hauling ore from several mines in addition to the Kennedy which shipped this season.

The Northern Pacific's first move has been on the Cuyuna range where a contract has been let for the construction of a spur from the present main line at Deerwood, Minn., to section 30, which will be shipping ore next season. The contracts for further extensions of the Northern Pacific lines on the south range are to be let shortly.

Extension to the north range which territory is now monopolized by the Soo, are also contemplated by the Northern Pacific.

In connection with the activity of the Hill line on the Cuyuna range, some move is looked for in Superior shortly to provide the necessary ore dock facilities. The dock will undoubtedly be located on the property owned by the road on the Superior bayfront, just north of the Nemadji river. This is just across the river from the ore docks of the Great Northern road.

The Northern Pacific will have some advantage over the Soo in getting the Cuyuna ore hauling business from the fact that it owns the Northwestern Development company, a subsidiary which holds large tracts of ore bearing land. When this land is leased for mining purposes, as some of it already has been, the contracts will specify that the ore is to be shipped over the Northern Pacific road.

The so-called south range of the Cuyuna is controlled by the Northwestern Development company. On this range shafts are being sunk by the M. A. Hanna company, the Pickands-Mather company, and other mining concerns. This will soon be shipping and the ore will be moved over the Northern Pacific.

The Soo has contracts with large numbers of mine owners for the haul-

ing of their ore. The present rate of 65 cents a ton is to be reduced to 60 cents as soon as the movement over the road reaches 2,000,000 tons annually.

So far as Superior is concerned, the fight for the ore business between the two big railroad systems cannot but result in big improvements to the local terminals of the lines involved. Whichever one wins out will be compelled to expend large sums of money here before it is able to successfully hold the major portion of the business.

A Medicine That Gives Confidence Is Foley's Honey and Tar Compound. Mrs. T. J. Adams, 522 No. Kansas Ave., Columbus, Kas., writes: "For a number of years my children have been subject to coughs and colds. I used Foley's Honey and Tar Compound and found that it cured their coughs and colds, so I keep it in the house all the time." Refuse substitutes. For sale by all druggists.

## FRESH AIR LINE

Automobiles and Progressive Luncheon of 7th St. Norwegian Lutheran Church Well Patronized

The "Fresh Air Line," whose central station was at the Seventh street Norwegian Lutheran church and whose general passenger agent was Sam Engbretson, did a great business last night. The train dispatcher was a new man on the job and barring one delay at the start-off, the automobile coach system worked well and the crowds waiting for a ride packed the basement of the church and made a rush for cars something like fair time at the twin cities.

The writer got away in car No. 1, driven by J. A. Erickson, chairman of the board of county commissioners. With six passengers on board he left the church for the first station, Saladville, the home of Mr. and Mrs. Carl J. Anderson, 324 Broadway, where the ladies and gentlemen entered the dining room and were served with their choice of three salads. Mr. Erickson returned to the church with his auto and picked up another passenger list.

Henry Rosko gathered his passengers, left them at Station No. 1 and gathered the six who had eaten salads at the Anderson residence and then rushed through the darkness to station No. 2, Sanofoevichville, the home of Mr. and Mrs. Peter Olson at 1323 Oak street. Here hot coffee and sandwiches were served.

Harry Patek, in his E. M. F., left the church, dropped his passengers at No. 1 station, picked up some salad people, dropped them at station No. 2, picked up those who had finished eating and whirled them down Oak street into the country to the old Dodd place, now station No. 3 on the "Fresh Air Line" and the home of Mr. and Mrs. T. J. Newgard. Here ice cream and cake were served. Mr. Patek returned to the church.

Stanley Vanek carried another list of passengers, going the rounds of the stations and picked up the original six at station 3 and took them to the home of Attorney and Mrs. Gustav Halverson, who were in charge of the last stopping place. Mr. and Mrs. Halverson, newly married, have a pretty home at 1608 Oak street,

## The Tailor Dressed Woman Is Welcome Everywhere

There's no use talking—clothes DO count. You know it yourself from your own experience.

Let a fashionably dressed woman enter a room and all eyes are instinctively turned toward her. Let her go marketing and she receives more individual attention and consideration than her less attractive sister is shown.

It's unjust we know—but it's true. There's a feeling akin to reverence for the smartly tailored woman. She carries with her an air of refinement and good taste that instinctively commands respect from all classes.

When you see such a woman, don't envy her. Have YOUR clothes made-to-order and be tailor-dressed yourself.

## Our Tailoring Department Is At Your Service

The best that this land affords in snappy, up-to-the-minute tailoring—the cream of the most fashionable weaves that the mills produce, and the very latest designs from the style centres are yours, here to choose from at prices so reasonable you'll wonder how we do it.

The answer is simply this:—We are the local exclusive representatives of the American Ladies Tailoring Company of Chicago—America's Master Tailors for women—who by means of their scientific organization and expert tailoring service are able to produce better ladies garments than ever before at prices within your easy reach.

It will pay you well to drop in and see our magnificent Fall display of this famous made-to-order line next time you are in our neighborhood.

No obligations to buy.

him to go below. The second officer on  
the bridge heard the captain call out  
the man's name and thought it was an  
order to change the course of the vessel  
to west. He did so, and the result was  
that the ship ran on to a dangerous  
shoal. That name cost the owners of  
the vessel the sum of \$500,000.

## FRANK W. FARHAM CALLED

Employee of Minneapolis Engineering  
Department, Formerly of Brainerd,  
Dies Suddenly

Frank W. Farnham, an employee of  
the city engineering department of  
Minneapolis, a resident of Minneapo-  
lis for more than 30 years and former-  
ly residing in Brainerd, dropped  
dead at his home, 1522 Ninth avenue  
south in the mill city Tuesday after-  
noon.

Mr. Farnham had not been in good  
health for several years. He was taken  
sick shortly after noon and he fell  
to the floor dead after starting back  
to work. Coroner Seashore was  
called and pronounced death due to  
heart disease. Mr. Farnham was 57  
years old. He leaves a wife, two sons  
and a daughter.

In Brainerd he was interested in  
the sawmill which was located in the  
pioneer days near the river on the  
south side. He took an active part  
in the business and political life of  
that day.

### At the Opera House

The Farrel-Thomas company will  
commence a three night engagement  
in repertoire at the Park opera house  
tomorrow night and there is every  
reason to believe that the popular  
play house will see a capacity audi-  
ence. The company comes highly  
recommended to the management as  
clean, refined and able exponents of  
amusement capabilities. Besides giv-  
ing a play each night, nine great  
vaudeville specialties will be in-  
troduced, including Queen Antoinette,  
the dainty soubrette, a challenge  
troupe of trained pigeons, and the  
celebrated Carre Sisters. The company  
will appear at popular prices, 10, 20  
and 30c and the management has  
decided to make a special price of 10c  
to every lady attending the Thursday  
evening performance. The advance  
sale started this morning at the op-  
era house box office.

### What's In a Name.

A large steamer was once wrecked  
because one of the sailors was named  
West. The vessel was outward bound  
from Rotterdam, and the sailor was on  
deck polishing some brasswork. Sud-  
denly the captain called him and told  
him to go below. The second officer on  
the bridge heard the captain call out  
the man's name and thought it was an  
order to change the course of the vessel  
to west. He did so, and the result was  
that the ship ran on to a dangerous  
shoal. That name cost the owners of  
the vessel the sum of \$500,000.

### KEEP THE KIDNEYS WELL

Health is Worth Saving, and Some  
Brainerd People Know How  
to Save it

Many Brainerd people take their  
lives in their hands by neglecting the  
kidneys when they know these or-  
gans need help. Sick kidneys are  
responsible for a vast amount of suf-  
fering and ill health, but there is no  
need to suffer nor to remain in dan-  
ger when all diseases and aches and  
pains due to weak kidneys can be  
quickly and permanently cured by the  
use of Doan's Kidney Pills. Here is  
a Brainerd citizen's recommendation.

Mrs. Benjamin Nelson, 701 Third  
Ave., Brainerd, Minn., says: "Our  
high opinion of Doan's Kidney Pills  
remains the same as when we pub-  
licly endorsed this remedy in 1908.  
We have procured Doan's Kidney  
Pills from local drug stores and they  
have never failed to give relief from  
lumbago and other annoyances caused  
by disordered kidneys. We urge a  
trial of Doan's Kidney Pills in all  
cases of kidney complaint."

For sale by all dealers. Price 50  
cents. Foster-Milburn Co., Buffalo,  
New York, sole agents for the United  
States.

Remember the name—Doan's—  
and take no other.

### FRANK W. FARHAM CALLED

Employee of Minneapolis Engineering  
Department, Formerly of Brain-  
erd, Dies Suddenly

Frank W. Farham, an employee of  
the city engineering department of  
Minneapolis, a resident of Minneapo-  
lis for more than 30 years and for-  
merly residing in Brainerd, dropped  
dead at his home, 1522 Ninth avenue  
south in the mill city Tuesday after-  
noon.

Mr. Farham had not been in good  
health for several years. He was tak-  
en sick shortly after noon and he fell  
to the floor dead after starting back  
to work. Coroner Seashore was  
called and pronounced death due to  
heart disease. Mr. Farham was 57  
years old. He leaves a wife, two  
sons and a daughter.

In Brainerd he was interested in  
the sawmill which was located in the  
pioneer days near the river on the  
south side. He took an active part  
in the business and political life of  
that day.

### STOMACH PUT IN ORDER

No Indigestion, Gas, Sourness, Heart-  
burn or Dyspepsia 5 Minutes Af-  
ter Taking Diapiesin

If what you just ate is souring on  
your stomach or lies like a lump of  
lead, refusing to digest, or you belch  
gas and eructate sour, undigested  
food, or have a feeling of dizziness,  
heartburn, fullness, nausea, bad taste  
in mouth and stomach headache—  
this is indigestion.

A full case of Paper's Diapiesin  
costs only 50 cents and will thorow-  
ly cure your out-of-order stomach  
and leave sufficient about the house  
in case some one else in the family  
may suffer from stomach trouble or  
indigestion.

Ask your pharmacist to show you  
the formula plainly printed on these  
50-cent cases, then you will under-  
stand why Dyspeptic trouble of all  
kinds must go, and why Diapiesin  
always relieves sour, out-of-order  
stomachs or indigestion in five min-  
utes. Diapiesin is harmless and  
tastes like candy, though each does

Malibran's Generosity.

Malibran, the celebrated mezzo so-  
prano, who was born at Paris in 1791  
and died at Manchester, England, in  
1836, was beloved for her amiability,  
generosity and professional enthusi-  
asm. Her benefactions amounted to  
such considerable sums that her friends  
were frequently obliged to interfere  
for the purpose of regulating her  
finances.

### BEST AND HEALTH TO MOTHER AND CHILD.
